Music Theory Lessons & Tutoring

Do you know how to play an instrument or sing, but can't read sheet music? Or are you already taking music classes but you just can't seem to grasp everything your teacher is telling you? Would you like to get better grades on your assignments?

You can learn everything you need to know to understand how to read music through one-on-one lessons. Each student begins with a preliminary assessment to determine his or her experience and goals, and then receives their personalized lesson plan. Since each person is different, learning each week could include any of the following:

- Reading Musical Notation
- Writing Musical Notation
- Musical Symbols
- Meter
- Scales, Intervals, & Chords
- Melody
- Understanding Harmonic Structure
- Ear Training (listening & dictation)

Most students chose to learn out of traditional music books but this is not a requirement.
